

### Compensation methodology for trees of economical importance (timber)

Forest species tree compensation was determined according to the table of current forestry concession in Mozambique, viz. Boletim da Republica, Terca-feira, 25<sup>th</sup> August 1998, 1 Serie-Number 33, 3<sup>rd</sup> Supplement. Using this decree and following confirmation from the Unidade Inventario Florestal, the table below, detailing compensation values applicable to timber trees, was compiled. Compensation values are applied in Meticaís, but have been converted to US\$ (using the standard rate) for the purposes of comparison in this RPIP only.

Local name	Botanical name	Common name	Classification	Value (Mts/m <sup>3</sup> )	Value (US\$/m <sup>3</sup> )
Chafuta	<i>Azelia quanzensis</i>	Pod mahogany	1 <sup>a</sup>	65,000.00	2.95
Mecrusse, Cimbire	<i>Androstachys johnsanii</i>	Lebombo ironwood	1 <sup>a</sup>	65,000.00	2.95
Messasa	<i>Brachystegia spiciformis</i>	Msasa	3 <sup>a</sup>	30,000.00	1.36
Chacate	<i>Guibourtia conjugata</i>	Kleinbastermopanie	Precious	65,000.00	2.95
Nulo, Nunlu	<i>Balanites maughamii</i>	Torchwood, fakkelhout	1 <sup>a</sup>	65,000.00	2.95
Pau preto, Chire	<i>Dalbergia melanoxylon</i>	Zebrawood, sebrahout	Precious	65,000.00	2.95
Lunhane	<i>Albizzia brevifolia</i>	Berggralsdoring	1 <sup>a</sup>	65,000.00	2.95
Sandalo	<i>Spirostachys Africana</i>	Tamboitie	Precious	65,000.00	2.95
Mondzo	<i>Combretum imberbe</i>	Leadwood, hardekoel	3 <sup>a</sup>	30,000.00	1.36
Tingare	<i>Albizzia verzicolor</i>	Grootblaarvals doring	1 <sup>a</sup>	65,000.00	2.95
Tsandjanhovo	<i>Pterocarpus lucens</i>	Doringkiat	1 <sup>a</sup>	65,000.00	2.95
Mbila	<i>Pterocarpus angolensis</i>	Kiat	1 <sup>a</sup>	65,000.00	2.95
Nala	<i>Albizzia forbesti</i>	Breepeulvals doring	1 <sup>a</sup>	65,000.00	2.95
