## DISCLOSURE OF BAKU-TBILISI CEYHAN CRUDE OIL PIPELINE PROJECT ENVIRONMENTAL IMPACT ASSESSMENT STUDIES

**BTC Owners and BOTAS are pleased to announce that the Draft Environmental and Social Impact Assessment (EIA) Report of the Baku-Tbilisi-Ceyhan (BTC) crude oil export pipeline is available for public review and comment for a period of 60 days from late June to late August 2002. Following the 60-day disclosure period, all comments received will be addressed and incorporated as appropriate into the EIA, prior to formal submission to the Ministry of Environment of the Turkish Government.**

**The EIA describes the existing environmental and social conditions along the pipeline route, the design, construction and operation of the pipeline, the predicted effects of the activities and the measures which will be taken to prevent, minimise and mitigate any potential adverse effects on the ecology and population.**

**Copies of these documents have now been placed at the following locations in Turkey for public review:**
