

**Environmental and Social Action Plan
WaterHealth International, Inc. (WHI)**

Project # 29090

Date: December 7, 2009

#	Environment/Social Action Plan	Deadline
1.	WHI will propose a formal method and structure to apply the expanded integrated quality, social, environmental, health and safety management system developed by its subsidiary WaterHealth India Limited (WIPL) across all current and future operations outside of India. This integrated system incorporates IFC's Performance Standards and applicable environmental, health and safety guidelines with all applicable local and national guidelines and limits, and includes Standard Operating Procedures for: (a) mitigating impacts associated with construction and discharges during operation; (b) ensuring that the operations of the water health centers meet WHI's social and environmental standards; and (c) accidents/incidents during construction and operations are recorded, reported, monitored, investigated and corrective action implemented.	Prior to disbursement
2.	WHI will confirm that all Action Plan items required under IFC's previous investment in WHI's subsidiary, WaterHealth India Limited, have been addressed.	Prior to disbursement
3.	To the extent these Action Plan items apply to the operations of its current or future affiliates, WHI will undertake to integrate corrective actions into those operations as appropriate.	Prior to disbursement
