

ANNEX C5: MAPS TO SUPPORT ENVIRONMENTAL AND SOCIAL MANAGEMENT PLAN

This annex includes copies of the base maps that show the conveyor route and hot spots. A list of these maps (scale 1:25,000) along with their respective locations is presented in **Table 1** and an electronic copy is included in CD-1 of the attached CD-ROMs.

ANNEX C5: MAPS TO SUPPORT ENVIRONMENTAL AND SOCIAL MANAGEMENT PLAN

The attached pocket contains three CDs (CD-1, CD-2 and CD-3). These represent the GIS base maps for the ESA. They are reproducible and printable to facilitate maximum usability by users and adaptability to any change in the plans and/or environmental and social conditions. The contents of these CDs are as follows:

- CD-1: GIS base maps and satellite images
- CD-2: Part 1-Topographical maps scale 1:25,000
- CD-3: Part 2-Topographical maps scale 1:25,000

First, please note that in order to view the GIS maps available on CD-1 you will need to have the software GIS-ArcMap.

For installing the three CDs, please follow those steps:

- 1- Create a new folder on “Drive C” and name it “Final Disi”
- 2- Install CD-1 and copy its contents into the folder “Final Disi”
- 3- After copying the contents of CD-1 into the folder “Final Disi”, you will find inside this folder a sub-folder named “Maps(1-25000)”.
- 4- Install CD-2 and copy its contents into the sub-folder “Maps(1-25000)”.
- 5- Install CD-3 and copy its contents also into the sub-folder “Maps(1-25000)”
- 6- After performing the above steps, you will find inside the folder “Final Disi” a file called “Final.mxd”.
- 7- Double click on the “Final.mxd” and the GIS project will launch. However, note that you should have the software GIS-ArcMap in order to launch the project.

The maps of scale 1:25,000 are available on CD-1 inside a folder called “Maps DWG (IMAGE)”. These maps are available in two sizes: A1 and A3. They can be viewed using any image software such as ADOBE, ACROBAT, etc.
