

PUBLIC CONSULTATION QUESTIONNAIRE REGARDING PROJECT  
SITTING  
(IN THE CONTEXT OF ENVIRONMENTAL IMPACT ASSESSMENT/  
INITIAL ENVIRONMENTAL EXAMINATION)

Project Title:

Date: 09<sup>th</sup> November 2012

1. Name of the person Interviewed: EMENE ELENGA
2. Age: Adult
3. Designation/profession: Chief Executive of the G.E.E.C
4. Qualification:
5. Address: n° 25 Urban Comity Avenue

6. View about the project in question:

This project is welcome in the manner that our country is on the development way, so it a real need.

To see the quantity of the cement from importation, I think that the local production is the best not only because it get an economic impact but also the creation of job.

SITTING  
(IN THE CONTEXT OF ENVIRONMENTAL IMPACT ASSESSMENT/  
INITIAL ENVIRONMENTAL EXAMINATION)

Project Title:

Date: 08<sup>th</sup> November 2012

1. Name of the person Interviewed: MATETE AMANI Polydor
2. Age: 40 years old
3. Designation/profession: Geologist at the Department of Protection of Mining environment
4. Qualification: Chief of division/ Department of Protection of Mining environment
5. Address: Justice Avenue n° 239. Ex- SNEL building tower
6. View about the project in question:

For the moment, it is very important to have a production project of cement in the Province of Bas-Congo and this project must respect the Mining law and regulation of the D.R. of Congo.

At the environmental view, the project must care about the protection of the environment and the application at the site as durable or permanent development.

The project must work in collaboration with the local authority, the local population (by giving job).

The cement plant must manage and protect the environment affected by the project.

1. Name of the person Interviewed: MUDOSA CHIRHABALWA Pierre
2. Age: Adult
3. Designation/profession: chief of the board in charge of Management of  
classified Establishment
4. Qualification: Graduate in Biology-chemistry
5. Address: pierratmud2006 @yahoo.fr
6. View about the project in question:  
At my opinion, it a good project to develop the D.R. of Congo in general  
and especially the Province of Bas-Congo.  
It will be better if the project is also established in the other Province of  
the Country like Sud-Kivu and Katanga where the environment is better  
for this kind of project.
