ESAP

	Project Name:	MAS Capital
	Team Name:	Reg Manufact, Agri & Services, ASIA
	Country:	Sri Lanka
	Lead Environmental Specialist (LESS):	

Delete	Action ID	Task Title/Description *
		Life and Fire Safety Review MAS will submit a life and fire safety (L&FS) review to IFC that identifies major fire risks, applicable codes, standards and regulations, and mitigation measures for all facilities. Scope of review should be responsive to all national requirements and an internationally recognized fire and life safety code, as required by the life and fire safety section of the WBG EHS General Guidelines. Based on the findings thereof, agree with IFC on a time based action plan to address any deficiencies identified.
		Exposure to Perchloroethylene (Tetrachloroethene) MAS will undertake a review of operating procedures associated with the use of percholoroethylene with the objective of reducing employee exposure, and monitoring potential long term health impacts from exposure. Scope of review should be responsive to all national requirements and an internationally recognized good practice for safe handling of perchloroethylene.
